陈昱翔 | Yuxiang Chen

Qingyuan Campus, Anhui University, No. 111, Jiulong Road – Hefei City
P. R. China

17305696233 • chenyx.cs@gmail.com • blog.csdn.net/feynman1999
Feynman1999

Education

Anhui University **Hefei, China**

Computer Science and Technology, *GPA:* 4.07 / 5 *Rank:* 8 / 140 *Sep. 2016 – PRESENT*

Skills

- **Mathematics:** Calculus, Linear Algebra, Probability Theory and Mathematical Statistics, Discrete Mathematics, Elementary Number Theory(self-taught)
- **Programming:** **C++** , Python , MatLab , JAVA , SQL , LaTeX good programming skills
- **Machine Learning:** learned *Machine Learning*(Andrew Ng), have a certain understanding of basic machine learning methods and deep learning methods
- **System/Framework:**
  - experienced with PyTorch, implemented some basic neural networks such as VGGNet, ResNet, LSTM, DCGAN, etc. See GitHub for details
  - learned a bit of CUDA(Compute Unified Device Architecture)
  - developed some small websites using $Django$ based on Python, e.g. www.datamine.top

Research Experience

Scientific Research Training Program for Undergraduates of Anhui University

supervisor: Huabin Wang **Hefei**

participation as a team member (total two) *Apr. 2018 – Apr. 2019*

Research Content study palmprint recognition technology and algorithm.

Related Achievements

- Have a certain understanding of the mainstream palmprint recognition algorithms.
- Proposed a new palmprint recognition algorithm, and one paper is accepted. *"Palmprint Recognition Based On Local Joint Edge And Orientation Patterns"* (ICDIP2019, second author)

ACM-ICPC (International Collegiate Programming Contest) Lab of Anhui University

supervisor: Jian Zhou **Hefei**

representing Anhui University to participate in ACM-ICPC *Oct. 2016 – Dec. 2018*

Research Content classical traditional algorithms and data structures are used to optimize time and space efficiency and solve specific problems.

Related Achievements see my blog blog.csdn.net/Feynman1999 and Honors & Awards

Honors & Awards

2019

- The 10th Blue Bridge Cup National Finals **Second Prize**
- HUAWEI CodeCraft Challenge **Second Prize**

2018

- The 2018 ACM-ICPC Asia-East Continent Final (Xi'an) **Silver Medalist**
- The 2018 ACM-ICPC Asia Regional Contest (Qingdao) **Silver Medalist**
- The 2018 ACM-ICPC China Invitational Programming Contest (Ningxia) **Silver Medalist**
- 2018 CCF Collegiate Computer Systems & Programming Contest (CCSP) **Silver Medalist**
- The Third National Challenge Competition on Cryptography Mathematics **Second Prize**

2017

- Anhui province "Internet +" Innovation and Entrepreneurship Competition **Bronze Medalist**
- Excellent Student Scholarship of Anhui University

Extracurricular Activity

ByteDance ByteCamp2019

As a summer camp student, learned about some industry projects. **Beijing**

Aug. 2019

Our team's project is a ***red envelope second kill scenario*** used in TikTok, the main problem is dealing with high concurrency requests. The technology stacks are golang, gin, redis, pprof, etc.

Sinovation Ventures DEECAMP

As a summer camp student, learned about some industry projects. **Beijing**

Jul. – Aug. 2019

Our team's project is the ***edge-closed image generation system***, which is used to assist designers in drawing. The main algorithms are PoolNet and CycleGAN.

2019 VALSE (Vision And Learning SEminar)

As an audience, learned about cutting-edge computer vision related research **Hefei**

Apr. 2019

Student Union of Anhui University

As a secretary, did some service-oriented student work **Hefei**

Sep. 2016 – Jun. 2017
